

BALLOON TOP COACHES

- Unique-looking passenger cars that operated all over Canada and into the USA
- Incredible detail inside and out, with Rapido's silly amount of underbody and interior detail, including individual seats!
- These lasted almost 60 years in service and will look amazing mixed in with your more modern passenger cars!

Fly Away with Rapido's Balloon Top Coaches!

The Balloon Top coaches – or “Canadian Flyers” as they often called by railfans – are a series of 50 day coaches built by Canadian Car & Foundry in 1937 for Canadian National, numbered 5180-5229. (An order of 25 additional cars was delivered in 1942, with significant spotting differences.) The 1937 Balloon Tops were transferred to VIA Rail Canada in 1978, and the last car – 5186 – was finally retired in 1996!

The Balloon Top Coach Features:

- Scaled from CC&F blueprints and 3D scans of the real cars
- Full multi-colour interior detail with separate seats including see-through arm rests
- Track-powered interior lighting with capacitor system, operated by magnetic wand
- Super detailed, free-rolling 6-wheel Commonwealth trucks with truck-mounted generator detail
- Separately-applied grab irons and handrails
- Sprung diaphragms with etched-metal end gates
- Flush-mounted windows with printed window blinds
- Full underbody detail with separate piping
- 22" minimum radius recommended
