Horizon

By Rapido Trains

Amtrak Phase VI
Dinette & Coach Production Models

Introduced by Amtrak in April 1989, the Horizon fleet (initially known as the Amfleet IIIs) were based on the Pullman-Standard Comet-series commuter cars built since 1970. The new Horizon fleet consisted predominantly of two basic car types - Coach and Dinette - with 86 and 18 cars respectively forming the 104-car order placed with Bombardier.

Over the years, the Horizon cars have remained largely unchanged from their as-built appearance, with the only predominant visual differences being the evolution of the Amtrak paint schemes from Phase III through Phase VI. However, two key changes that occurred include the replacement of the original power sliding doors with manually-operated parlor doors and the replacement of the fold-down stairs with fixed steps.

The Rapido Horizon cars will feature the same great attention to detail you've come to expect, including free-rolling wheels, detailed underbodies, flicker-free interior lighting and more.

The Rapido HO scale Horizon cars feature:

- Coach, Dinette, Club-Dinette cars
- **All-new** ADA Coach cars
- **All-new** car numbers
- Full underbody and interior detail
- Correct GSI G70 trucks with metal wheelsets
- Accurate painting and lettering
- Tinted windows
- **Improved** interior lighting in both DC and DCC
- Independently-controllable end marker lights
- Metal side grab irons

MSRP \$109.95 USD \$129.95 CAD

Pre-order Deadline: May 16th, 2022
