6-Pack **\$269.70** USD / 6-Pack **\$359.70** CAD

**Order Deadline:**  
**MAY 15<sup>th</sup>, 2025**

One of the most overlooked, yet common loads carried by North American railroads is finished wood products! We are proud to introduce the N Scale NSC 73' Centerbeam Car. Over 20,000 examples of this car were produced by National Steel Car, between 1987 through the mid-2000s, with some car variations along the way.

Whenever you see a general merchandise freight pass by you, there's a high probability that you will see at least four or more centerbeams mixed in. Have you taken notice of the roadnames/ownership of those cars? Centerbeams are unique in that they are owned by large Class I railroads, leasing companies and smaller shortlines. The wood industry is so lucrative that even our new run of the N Scale 73' NSC Centerbeam is no stranger to a wide variety of roadnames!

## The N Scale NSC 73' Centerbeam features:

- Two top truss configurations; early Z pattern and standard closed pattern with tie-down brackets
- Two deck configurations; early with risers and mid without risers
- Two underbody configurations
- Multiple brake stand options
- Multiple truck types
- Fully detailed underbodies with brake piping
- Free rolling, metal wheelsets
- Multiple end cage variants
- Available in singles or multi-packs
- Suggested minimum radius: 11"

\* Decorated cars have six individual car numbers depending on paint scheme. These will be available as a six pack (six individual cars shrink wrapped together and are **easily broken up for individual sale**).
