 SINGLE CAR **\$44.95 / \$54.95** US / CAD

ORDER DEADLINE: FEBRUARY 15TH, 2023

Pre-production samples shown, subject to revision.

One of the most overlooked, yet common loads carried by North American railroads is finished wood products. This is where we are proud to introduce the HO Scale NSC 73' Centerbeam Car! Over 20,000 examples of this car were produced by National Steel Car, between 1987 through the mid 2000s, with some car variations along the way.

Whenever you see a general merchandise freight pass by you, there's a high probability that you will see at least four or more centerbeams mixed in. But have you taken notice of the roadnames/ownership of those cars? Centerbeams are unique in that they are owned by large class I railroads, leasing companies and smaller shortlines. The wood industry is that lucrative and our N Scale 73' NSC Centerbeam is no stranger to a wide variety of roadnames!

The N Scale NSC 73' Centerbeam features:

- Two top truss configurations; early Z pattern and standard closed pattern with tie-down brackets
- Two deck configurations; early with risers and mid without risers
- Two underbody configurations
- Multiple brake stand options
- Multiple truck types
- Fully detailed underbodies with brake piping
- Free rolling, metal wheelsets
- Multiple end cage variants

* Decorated cars have six individual car numbers depending on paint scheme. These will be available as a six pack (six individual cars shrink wrapped together and are **easily broken up for individual sale**).
